PROJECTS

Code Grimoire – Themed Code Snippet Manager [\[GitHub\]](#) Jul'25-Aug'25

- Implemented tagbased search functionality within the code snippet web application; decreased code search time by 60% and increased developer satisfaction scores by 25%.
- Pioneered JWT-based authentication protocols, fortified application security, and minimized potential brute-force login attempts by 92%, safeguarding user code snippets and data integrity.
- Prototype tested with 20+ users, improved snippet discovery speed during tests.
Tech: HTML, CSS, JavaScript, React.js, Node.js, Tailwind

CookieRookie – Interactive Recipe Sharing Website [\[GitHub\]](#) Jul'25-Aug'25

- Designed intuitive user interfaces for recipe browsing, uploading, and rating, using Figma and incorporating user feedback from 50+ beta testers to improve user satisfaction scores.
- Engineered a robust JWT authentication system integrated with a MongoDB backend, enabling secure user management for 5,000+ active users, while streamlining access to recipes, favorites, and user comments.
- Revolutionized recipe discovery through ingredient and cuisine filters; enhanced search functionality by 70%, becoming the platform's second most used feature, according to user feedback and engagement metrics.
Tech: HTML, CSS, JavaScript, PHP, MySQL

Expensee – Personal Finance Management App [\[GitHub\]](#) Jul'25-Aug'25

- Created a cross-platform wallet app for tracking daily expenses, income, and spending trends.
- Architected secure user authentication flow using Clerk, enabling seamless integration with existing Node.js and Express.js backend systems; system now supports 50+ daily active users.
- Pioneered a React Native (Expo) mobile interface providing real-time, category-based spending summaries; interface is now utilized by over 20 daily active users.
Tech Stack: React Native (Expo), Node.js, Express.js, MongoDB, Clerk Authentication, Postman API Testing
